MUNDO DE ORO TEQUILA

- Carbon filtered and oxygenated to enhance the characteristics, flavor profiles and notes
- Aged in red and white wine barrels for a unique, sweet profile
- Embodies the magic of the Mexican lands

From the mystical earth and soils of Mexico comes our country's richest treasure, a beautiful 100% agave tequila that has been cultivated from years of tireless labor and traditions. Experience the magic that emanates from the earth and soaks up the culture, flavors and passions of Mexico's traditions. We believe tequila is the most valuable and artistic commodity which is why we crafted Mundo de Oro, translated to World of Gold, with exquisite detail to each profile. We distinctively age our tequila in barrels that have been used with red and white wine to compliment the sweeter notes of agave and giving our tequilas very unique profiles. They are then carbon filtered and oxygenated to enhance the characteristics, flavor and notes and soften the harshness that can be found in many tequilas, resulting in an easy to sip, delicate tequila.

METEORO MEZCAL

- Artisanal Mezcäl strictly using traditional methods
- Packaged using recycled materials
- Originating from Las Margaritas, Oaxaca, Mexico

According to legend, a flash of light suddenly illuminated the sky of the Southern Sierra of Oaxaca. A roar was heard and people saw “little eyes of fire” falling from the Heavens. An old “Maestro Mezcälero” saw a small crater with a meteor lying inside had formed.

He decided to use that crater and the red hot stone to cook his ripe agave hearts. And thus, he made the best Mezcäl anyone had ever tasted. When people asked how he had done it, he simply replied “it fell from the sky.” Meteoro is an artisanal Mezcäl of the highest quality strictly using the traditional methods.
