AGAVALES PREMIUM

TEQUILA

Agavales has become one of the top national brands in America and overseas. It has always had fame of over delivering with a great price/value ratio. We have done this now with the most expensive tequilas available. We dare you to compare our Agavales Premium to any $50+ bottles of tequila. Our difference is that our product is truly craft. We hand-pick each agave and blend 50% from the highlands and 50% of the lowlands to ensure all the tequila region has to offer. Next we fire roast the agave the traditional method. This is much more expensive and time consuming but the result is an exceptional product. Our tequila is then fermented and distilled and never touches a diffuser that strips out the flavor. We take pride in every bottle and to stay true to our name, we over deliver in a big way.

METEORO
MEZCAL

According to legend, a flash of light suddenly illuminated the sky of the Southern Sierra of Oaxaca. A roar was heard and people saw "little eyes of fire" falling from the Heavens. An old "Maestro Mezcalero" saw a small crater with a meteor lyying inside had formed. He decided to use thar crater and the red hot stone to cook his ripe agave hearts. And thus, he made the best Mezcal anyone had ever tasted. When people asked how he had done it, he simply replied "it fell from the sky." Meteoro is an artisanal Mezcal of the highest quality strictly using the traditional methods.

MEZCALERO
MEZCAL

Single-batch artisan mezcal based on wild/ semi-wild agaves. The brand was conceived by Craft Distillers & developed in collaboration with Destileria Los Danzantes Craft-method distillation is what we believe in. Great product deserves an audience. ANIMAS
MEZCAL

Artisanal distillation of fully mature agaves, focused on the rare wild agave cupreata, known as papalometl. Very few distillers source their cupreata in Oaxaca: it's usually found further north. Eber Villalobos has been in the mezcal trade for 11 years, and is using his knowledge to produce a genuinely excellent mezcal – no bells & whistles, just the real thing. Eber has worked in Silacoyoapam, up north in the mountainous Mizteca, where he sources his wild papalometl (agave cupreata), but has moved to a notably well-run distillery in Santiago Matatlan operated by Procoro Bautista. Meticulous tends to mean great product: doing everything exactly right. Textbook mezcal.

LOS NAHUALES
MEZCAL

Artisan mezcal from Oaxaca is a world-class spirit, and it comes from the last of the world's great spirit regions not yet dominated by huge commercial producers. Artisan mezcal is richer and more true to its material than its famous cousin tequila: this because artisan mezcal is distilled including the agave solids and without diluting the fermented distilling material with water (done with tequila to recover more alcohol). Los Nahuales (Los Danzantes in Mexico) is the brainchild of the Muñoz brothers, producing authentic local products for their fabulous restaurants. Very very few spirits are so authentically hand-made by ancestral methods. These are extraordinary products.
