AGAVALES PREMIUM

TEQUILA

Agavales has become one of the top national brands in America and overseas. It has always had fame of over delivering with a great price/value ratio. We have done this now with the most expensive tequilas available. We dare you to compare our Agavales Premium to any $50+ bottles of tequila. Our difference is that our product is truly craft. We hand-pick each agave and blend 50% from the highlands and 50% of the lowlands to ensure all the tequila region has to offer. Next we fire roast the agave the traditional method. This is much more expensive and time consuming but the result is an exceptional product. Our tequila is then fermented and distilled and never touches a diffuser that strips out the flavor. We take pride in every bottle and to stay true to our name, we over deliver in a big way.
