MUNDO DE ORO TEQUILA

- Carbon filtered and oxygenated to enhace the characteristics. flavor profiles and notes
- Aged in red and white wine barrels for a unique, sweet profile
- Embodies the magic of the Mexican lands

From the mystical earth and soils of Mexico comes our country's richest treasure, a beautiful 100% agave tequila that has been cultivated from years of tireless labor and traditions. Experience the magic that emanates from the earth and soaks up the culture, flavors and passions of Mexico's traditions. We believe tequila is the most valuable and artistic commodity which is why we crafted Mundo de Oro, translated to World of Gold, with exquisite detail to each profile. We distinctively age our tequila in barrels that have been used with red and white wine to compliment the sweeter notes of agave and giving our tequilas very unique profiles. They are then carbon filtered and oxygenated to enhance the characteristics, flavor and notes and soften the harshness that can be found in many tequilas, resulting in an easy to sip, delicate tequila.

METEORO MEZCAL

- Artisanal Mezcal strictly using traditional methods
- Packaged using recycled materials
- Originating from Las Margaritas, Oaxaca, Mexico

According to legend, a flash of light suddenly illuminated the sky of the Southern Sierra of Oaxaca. A roar was heard and people saw “little eyes of fire” falling from the Heavens. An old “Maestro Mezcalero” saw a small crater with a meteor lyying inside had formed.

He decided to use thar crater and the red hot stone to cook his ripe agave hearts. And thus, he made the best Mezcal anyone had ever tasted. When people asked how he had done it, he simply replied “it fell from the sky.” Meteoro is an artisanal Mezcal of the highest quality strictly using the traditional methods.

SILVER STAR WHISKEY & BOURBON

Award-winning Silver Star® Whiskey is a traditional bourbon mash, comprised of corn, rye, and barley. After distillation, the whiskey is placed into charred, single-use, American white oak barrels and laid to rest. After barrel aging, we cut to proof using purified Texas rainwater. Silver Star® Whiskey is a uniquely smooth, slightly sweet everyday drinking whiskey.

Silver Star 1849 Bourbon Whiskey® is made from our preferred mash of Texas grown corn, rye and barley and aged in new American white oak barrels. The result is a balanced straight bourbon whiskey that is a favorite of mixologist. We named it "1849" in honor of the establishment of Fort Worth, Texas by Mexican-American War hero General William Jenkins Worth. It represents not just a man and a city, but the spirit of the modern west.

LAS CALIFORNIAS GIN

TWO COUNTRIES, ONE SPIRIT

Las Californias is a range of gins made with botanicals from two neighboring countries, the United States and Mexico.

Hyper-local foraging across this border resulted in the perfect mestizaje—from the colder waters in Alta which provide the most flavorful kelp, to a more floral white sage in the dry deserts of Baja.

AMARILLO AGUARDIENTE

- The fastest growing Aguardiente in Colombia
- Made from a local family recipe that dates back to 1885

It was the year 1885, when in Manzanares, a wonderful town among the mountains of Colombia, the formula for Aguardiente Amarillo was born, based on the use of the best Gorobeta cane, anise planted on the Guadalupe hill and pure water coming from the source of the Santo Domingo river. Its color was as vibrant yellow as the sun and its flavor was fresh and aromatic. A few years later, Industria Licorera de Caldas bought this secret formula, jealously preserving it so that today everyone can enjoy it.
